Light, neutral-coloured leathers, straight-grain walnut timber and gold almond metal accents form the base of the interior palette. The Aft Lounge bulkhead features a bespoke marquetry of colour-tinted burr whilst the mid and forward bulkheads are treated as vertical 3D slatted screens of light wood and mirror, providing privacy and transparency.

The exterior transformation is nothing short of spectacular. The bold exterior livery features a pearlescent white graphic pattern emblazoned on the rich, metallic teal-coloured fuselage and winglets, creating a striking and dynamic appearance.
